

JERUSALEM ARTICHOKE BEAUTY SERIES

Jerusalem artichoke beauty tea

Digestive health → Promotes the growth of intestinal bacteria and increases the number of beneficial bifidobacteria, supporting digestive health and improving bowel movements.
 Blood sugar control → Regulates sugar metabolism. Suppresses sudden increases in blood sugar levels and improves insulin function.
 Improved immune function → Improves immune function. Increasing the number of beneficial bacteria in the intestines helps regulate the immune system, suppressing inflammation and improving resistance to pathogens.
 Promotes mineral absorption → Improves absorption of minerals such as calcium and magnesium. Maintains bone health and metabolic function.

Popular product made with pesticide-free Jerusalem artichoke from Hokkaido

Most popular

Jerusalem artichoke beauty tea (regular)

Jerusalem artichoke from Hokkaido, rich in inulin, is made into a roasted tea. Jerusalem artichoke, a member of the Asteraceae family, is rich in inulin, a water-soluble dietary fiber.

You can ingest water-soluble inulin. It has a sweet flavor. It is difficult to obtain because it has a short shelf life in its raw state. This product can be stored for a long time by drying and roasting the Jerusalem artichoke.

2g of Jerusalem artichoke roasted tea is equivalent to 11g of raw Jerusalem artichoke. The inulin content is also equivalent to 1g per 2g of product. No preservatives, flavors or colorings used, caffeine-free. Also available in packs of 40 bags.

Japan's first

Jerusalem artichoke beauty tea (deep roasted)

Jerusalem artichoke tea is deep roasted using a method different from the usual method to give it a bitter taste. 2g of Jerusalem artichoke roasted tea is equivalent to 11g of raw Jerusalem artichoke. Inulin content is also equivalent to 1g per 2g of product. No preservatives, flavors or colorings used, caffeine-free.

Japan's first

Jerusalem artichoke beauty tea (with ginseng tea)

Benefits and Effects of Ginseng

Increased Energy: Improves physical and mental energy

Improves immune function: Ginseng contains ingredients that improve immune function and have antioxidant and immunomodulatory properties.

Blood sugar control: Ginseng is said to have the effect of stabilizing blood sugar levels. It is also expected to improve memory and cognitive function.

80% Jerusalem artichoke (from Hokkaido) 20% Ginseng (domestic)

No preservatives, flavors or colorings, caffeine-free.
